

FOOD CITY

We're Here for You!

In these uncertain times, it is important for you to understand what we are doing to keep you safe in our store.

Please know...

We have implemented a rigorous cleaning, sanitation and disinfection process, which includes:

- **30-minute cleaning** of high touch point surfaces (registers, key pads, counters, etc.)
- **Cart disinfection program** which disinfects carts every time they come back from the parking lot
- **Gloves** are provided and **masks** approved for cashiers if they like
- **Register distance shields** creating a physical barrier between our cashiers and customers
- **Social distance programs:**
 - Visual markings at the deli/bakery & the registers to show exactly where to stand to keep 6' distance
 - In store radio social distance & health/wellness reminders
 - *6' feet distance reminders*
 - *Stay home if you're sick*
 - *Sneeze and cough into a tissue or into your elbow*
 - *Wash hands regularly with soap for 20-seconds*
 - *Refrain from touching your face*
 - In store signage reminder for social distancing & health/wellness

Thank you for your patience and understanding.
